

In addition to our full service commercial roofing, decking, and sheet metal departments, MRI also offers the following:

### Leak Repair

- [Immediate 24/7/365 Emergency response](#)
- The single most important goal of the MRI emergency response program is to prevent one single drop of water from entering our client's building at any time of the day or night.
- Daily roof repair service in Houston, TX and surrounding areas
- Roof replacement service
- Waterproofing service

### Preventative Maintenance Program

Proper maintenance is the most proactive and cost effective solution to ensuring the integrity and life expectancy of your roofing system. According to a recent Roofing Contractors/NRCA study, over 35 % of commercial roofing related expenses were not budgeted. Marton Roofing Industries has been extremely successful in helping our clients avoid these unexpected costs by implementing our Roof Maintenance Program. The program is customized to fit the needs of each individual situation and will include the following:

- Bi-Annual or quarterly inspections of roofing system
- Removal of any debris preventing proper drainage
- Perform minor repairs that will allow for efficient roof system performance and adhere to the original roofing warranty guidelines
- Provide detailed report of any major problems discovered and cost estimate for suggested corrective measures
- We also offer 24/7/365 Emergency Service to all of our clients in Houston, TX and beyond

Your commercial roofing system is the key to providing your building with protection. Simple routine maintenance by a Marton Roofing Industries professional will prevent the small problems from becoming big ones and extend the life of your roof. Allow us to help you protect your investment by calling today at (713) 664-7000 or email [fmatias@mritexas.com](mailto:fmatias@mritexas.com) .

### Energy Solution

- MRI offers energy solutions that complement our core roofing, decking and sheet metal businesses by offering energy efficient roofing systems to commercial building owners and managers.
- MRI's services begin with a thorough assessment of the specified or existing roofing system, the local climate, and the function of the building.
- MRI's commitment to our clients never stops - we offer monitoring and maintenance programs to help maximize performance and extend the life of the roof system.
- MRI is an [approved applicator](#) of virtually every major Energy Star roofing system in the United States.

### Equipment

- Over 100 fully equipped trucks, trailers, and pieces of heavy equipment
- Monthly maintenance and safety inspections on all vehicles and equipment
- CAD drawings of roof plans and sheet metal details
- 40,000 sq. ft. warehouse in Houston, TX fully stocked with materials from all major commercial manufacturers
